## FCCF awards grant to Dr. Robert E. Appleby School Based Health Centers

The Dr. Robert E. Appleby School Based Health Centers, a program of the Human Services Council, is the recipient of a \$20,000 grant from the Fairfield County Community Foundation which will support the continuation and expansion of medical and mental healthcare services for students in the School Based Health Centers at Brien McMahon High School, Briggs High School, Norwalk High School and Nathan Hale Middle School.

"We are most appreciative for the continued support of Fairfield County Community Foundation. It is because of their generosity and continued support that we are able to fulfill our mission of improving the overall physical and mental health of students in order to maximize their educational experiences and potential. During these difficult economic times the support of community foundations enables us to provide much needed medical and mental health services to Norwalk's youth," said Rhonda Capuano, director of the Dr. Robert E. Appleby School Based Health Centers".

The Fairfield County Community Foundation promotes the growth of community and regional philanthropy to improve the quality of life throughout Fairfield County. For information on the Health Centers, visit [www.bsccct.org](http://www.bsccct.org) and/or contact Rhonda Collins Capuano, director at (203) 849-1111.
